VALUABLE

Timber Lands

And Mill Property

FOR SALE.

THE subscriber, desirous of disposing of all his interest in Timber Lands and mills, will sell on favorable terms the following:

One-Half Township No. 5, Range 4, Oxford County.

The whole township contains twenty-six thousand (26,000) acres, is heavily timbered with spruce, cedar and all kinds of hard wood, all of which stands within near and easy hauling distance of the Magalloway river or its branches, which runs through the town or Parmachena Lake, which is embraced within its limits.

Also 16,000 Acres of Land in the Town of Byron, Oxford Co.

Well covered with large Spruce timber. Swift River and its branches run through these lands and empty into the Androscoggin below Rumford Falls.

Also 1100 Acres Timber and Wood Land in Town of Gorham, N. H.

two miles above the Alpine House, on the line of the Grand Trunk Railroad, and the banks of the Androscoggin river. There is a large quantity of wood on these lots which, from its proximity to the Railroad, is steadily increasing in value.

Also 2800 Acres Lands in the Towns of Albany and Stoneham.

near the village of North Waterford, Oxford County. This land is covered with thrifty sapling Pine timber, standing near Crooked River, which runs through the tract. Logs put into Crooked river can be run to Sacogapha, or by hauling four to five miles they can be put into the Saco. There is a good mill privilege, with a single saw mill on the tract, distance to the canal at Harrison ten miles; to the railroad at South Paris twelve miles. The land is valuable for settling purposes after being cleared of timber.

Also 435 Shares of Stock in the Lewiston Steam Mill Company,

the whole capital stock being represented by 87 shares. The property of the company consists of a Steam Saw Mill, capable of manufacturing five million feet of long lumber, with a proportionate amount of Shingles, shingles and laths. About fifteen acres land in the city of Lewiston, well located for building purposes, and thirty thousand acres of timber land, well located on the Androscoggin river and its branches, from which but a small quantity of the timber has been cut.

ADJOURNMENT OF CONGRESS.

A day has at last been definitely fixed for the adjournment of the present session. The Senate having extended the time specified in the concurrent resolution of the House, to July 15th, the House promptly acquiesced, and a motion to reconsider having been laid on the table, the decision was made final; so that calculations may now be made with reference to the amount of business remaining unfinished, and which must be accomplished before the middle of July, or not at all. But seven weeks now remain, and the formidable array of important measures to be acted upon will tax the industry, and restrain the volubility of members, if they have any idea of disposing of them. Many of the leading questions have already been sufficiently discussed, and the larger portion of the remainder are probably as well understood now as they would be after weeks of foggy debate, and if Congress will but rest satisfied with the amount of talk already expended, and go to work in real earnest, much of the legislation which is positively necessary to the prosperity of the country may be completed before adjournment. In order for this, much of the trashy accumulations of the session must be brushed aside, and attention given at once to matters, which are most pressing. The bills relative to Commerce; the Currency and Tax bills, and all measures directly affecting business interests, which are now disordered and demoralized by uncertainty, should be considered at once, before the approaching end of the session shall induce hasty and ill-considered action, upon subjects of great importance. The country demands definite action upon these questions, and expects its representatives to realize the necessity of prompt, vigorous and efficient work!

PROHIBITION AT THE CAPITAL.

There is a fair prospect, says the New York Tribune, if a bill introduced by Mr. Pomeroy in the Senate, becomes a law, that the disgrace of drunkenness in public may become less frequent in Washington. The bill prohibits the sale of intoxicating liquors within the District of Columbia, excepting only the sale of poisons, medicines and alcohol by druggists, and the sales of the latter are surrounded with restrictions, among which is the requirement that a registry of them and of the buyers shall be kept, open to police and official inspection. The keeping of grog-shops and the retail business are especially aimed at by the provisions of the bill. It is stringent in regard to sales to minors, and notification by the relatives of any person that he is a drunkard or intemperate will prevent the sale of liquor to him. Aside from the fines and penalties imposed for violations of the different provisions of the bill, the seller of liquors is to be held responsible for all injuries which may be committed by the person whom his liquors intoxicate; and this applies specially in favor of a wife, child, parent, guardian, employer or person dependent for support, the liquor-seller being responsible even for exemplary damages.

But the most interesting feature is the mode it proposes for dealing with drunkards and intemperate men. Enumerating a list of such failings, and winding up with "and refuses or is unable to restrain his appetite and his passions," the man of whom all these peculiarities are descriptive is to be adjudged insane and confined in a lunatic asylum. If, however, the other provisions are enforced and the custom of tippling in barrooms as an interchange of social courtesies can be broken up, the lunatic asylums will not be overcrowded.

Caracas, the capital of Venezuela, was captured on the 27th ult., by Gen. Blanco, after two days' hard fighting. The city was greatly damaged by the artillery and 500 were slain. A new Government, with Gen. Guzman Blanco as President, has been established, and meets with no resistance. President Moroyos appeared before Lagunyra with 800 men, but hearing that the revolution had been successful, voluntarily surrendered, and was released on parole. The new Government has abolished duties on exports and reduced those on imports 70 per cent.

ROME.—A pamphlet has appeared at Rome, denouncing acquiescence in the dogma of the personal infallibility of the Pope as a mortal sin. It is supposed to have been written by the Bishop of Saint Berieux and produces an extraordinary sensation. The debate on infallibility in the Council continues. Of the fathers who have given notice of their intention to speak, sixty are yet to be heard. The close of the discussion is fixed for the 20th of June, the date of the next general congregation.

PARIS.—The public buildings, churches, cafes, and some private houses in Paris, were illuminated Saturday evening in honor of the declaration of the Plebiscitum. The principal streets were thronged with people, but no disorder occurred. The publishers of the Siecle, Reveil, Rappel and Avenir National have been condemned to imprisonment for one month, with a fine of 1000 francs, for the publication of a spurious proclamation over the signature of Louis Napoleon.

THE GREEK BRIGANDS, headed by the notorious outlaw Konit, who murdered the English and other prisoners, made confession before being executed, that their leader insisted upon a ransom being paid for the lives of the English and Italian Secretaries, by and through the advice of persons high in authority, and wielding great influence with the government of Greece. This information produced a feeling of deep concern at Athens, especially at the different diplomatic head quarters, and serious complications will grow out of this alarming announcement.

The Captain-General telegraphs from Havana that the combined operations by three columns of troops have produced excellent results. Seventy-six rebels, including eight chiefs and two citizens of the United States, have been killed, and 28 taken prisoners. The rebel Colonel Bambettas' equipage and correspondence have been captured. Colonel Chinchilla, who is a nephew of Regent Serrano, was severely wounded. Colonel Borgels' detachment has killed 25 insurgents.

EUROPEAN AMMUNITION.—A Berlin correspondent gives the total available force of the chief continental armies, on an actual outbreak of hostilities, as follows: Austria and Prussia, 300,000 each; Italy, 200,000; France, 470,000; North Germany, 340,000; South Germany, 107,000. Giving a total of 1,823,000.

THE U. P. R. R. CASE.—Chief Justice Howe, of Wyoming, on Friday denied the application for a receiver in the case of Davis and his associates, against the Union Pacific Railroad; holding that the evidence before him did not justify it, or show any absolute necessity for such a remedy; that the road was now being managed by able and honest men and is in a prosperous condition, and if this were not so, the bond tendered by the Railroad Company is ample security for the complaint in any event.

THE DEATH PENALTY IN EUROPE.—The Lower House has passed the bill abolishing the death penalty in Holland.

In the Prussian Reichstag the government has accepted the proposition looking to the

FORTY-FIRST CONGRESS—SECOND SESSION.

WASHINGTON, May 23.

SENATE.

Mr. Casserly, rising to a question of privilege, moved, said that the 10th section of the 15th amendment had not been adopted as a part of the bill. As passed, the section in its practical operation extends to the Chinese and some rights as enjoyed by others. It goes, and prohibits discriminating by any State against immigrants of any foreign country over those of another. The only means of remedying what he supposed to be a mistake, he moved that the journal be corrected in accordance with his suggestion, and read from the official report of the debate in support of his assertion that in introducing the Senate bill for the House bill Mr. Pool, if he was not supposed by any Senator considering the Senate, that the Chinese question was included.

Discussions followed, consuming the remainder of the morning hour, and which was terminated by an explanation from the chair that the section referred to had not only been formally presented, but debated. Mr. Casserly then withdrew his motion.

Mr. Cameron from the Military Committee reported a joint resolution to furnish medals to the Pennsylvania and Massachusetts soldiers that were the first to arrive in April, 1861.

The Legislative, Executive and Judicial Appropriation bill was proceeded with, the question being upon the amendment by Mr. Corbett, that the male clerks, counters and copyists in the Departments be paid the same and no more than females performing the same duties.

The amendment was rejected, 6 to 38.

The pending amendment of Mr. Trumbull, placing females in the matter of compensation on the same footing with males, was modified upon the suggestion of Mr. Merrill of Me., by adding to it a provision authorizing the heads of the Departments to appoint females as clerks in any of the classes of clerkships in the Departments. Adopted 29 to 11.

Mr. Sherman then addressed the Senate upon the necessity of greater economy in the appropriations in connection with the reduction of taxation, taking as his text the amendment just adopted, which he said necessitated an additional expense of $400,000 per annum by adding to the permanent clerical force some 500 or 700 lady employees. This was a fair example of the indiscriminate increase of appropriations in the Senate. The appropriation bills from the House are invariably increased largely in the Senate, while the estimates for public works, claims for property of loyal people destroyed during the war, the Indian service bounties, &c., were very indefinite. Were it not for the payment of the interest on the public debt, the entire Revenue system might be dispensed with. The Finance Committee, however, proposes to sweep away all special taxes and take gross receipts, fees, &c., leaving of the Internal taxes only those on five articles, viz. spirits, tobacco, beer, stamps and a small income tax, which, except the latter, were paid all over the country without murmuring. He then reviewed the history of the income tax to show its equitable character. Mr. Sherman insisted that it was the most equitable tax levied; that it was the only one upon property and the only one that discriminated between the rich and poor.

The bill was then proceeded with and several amendments were adopted, among others, one by Mr. Sumner, authorizing the President to send one or more expeditions to the north pole; to appoint such persons as he may deem most fitted for the command thereof; to use any public vessel suited for the purpose, and appropriating $100,000 to be expended under the President's direction. The latter was adopted, 26 to 25, the Vice President giving the casting vote in the affirmative.

At the evening session the appropriation of $2000 for Assistant Register of the Treasury was stricken out and a long discussion ensued on an additional section by Mr. Sherman, appropriating $450,000 to complete the enlargement of the Ship Canal around the falls of the Ohio river at Louisville. Without disposing of the amendment the Senate adjourned.

HOUSE.

A resolution was adopted, instructing the Com. on Printing to inquire into the expediency of providing for the publishing of debates after March 4, when the present contract expires.

A resolution instructing the Judiciary Com. to report back the Cox, referred to in February, for an eight hour day in the Government workshops, was lost, 24 to 89.

The bill to exempt vessels engaged in internal and coastwise navigation and in fisheries from the payment of tonnage duties, was passed.

The Senate joint resolution for the appointment of an Examiner of Claims for the State Department, passed with an amendment reducing the appropriation from $18,000 to $7,500.

Messrs. Bingham of Ohio, Davis of N. Y. and Kerr of Ind., were appointed a Com. on Conference of the 15th amendment bill on this part of the House.

The Com. on Elections reported in the Eggleston-Strader case from Cincinnati, Ohio in favor of the latter, a Democrat and the sitting member, and in the Barnes-Adams case from Kentucky in favor of the latter, the sitting member. Both reports will be called up at an early day.

Mr. Grisswold of New York, offered a resolution for the appointment of a committee of three, to ascertain and report who are the present owners of, and interested in the franchise of the Northern Pacific Railroad Company. Rejected, 84 to 87.

A resolution was passed devoting $ condemned cannon for the Soldier's Monument in Allegheny Park, Pittsburg.

Mr. Judd of Ill., moved to suspend the rules that he might introduce and have passed, a bill to reduce the duties on imports, as follows: On syrup, molasses and all sugars, and tonnsat, 30 per cent.; on coffee and tea, 20 per cent.; on pig and scrap iron, 25 per cent. Rejected, 102 to 80, less than two-thirds voting yea.

The Army appropriation bill appropriating $20,057,057, was reported from the Committee and was made a special order for Wednesday.

A bill was passed conferring the right of naturalization on aliens who have enlisted in the navy or marines and have been honorably discharged.

The House then went into Com. of the Whole on the consular and diplomatic appropriation bill.

The debate on the amendment for a Minister to Rome being limited to ten minutes.

Mr. Dawes of Mass., in order to allow in his remarks on Thursday, in reference to the Know Nothing principles of Mr. Brooks, that he had not wilfully represented him and read a letter from a member of the Know Nothing party, and extracts from speeches delivered by Mr. Brooks in Columbus, O., and in the old Masonic Temple in New York.

Mr. Brooks said he had made many speeches in his life, some of which had been reported correctly, but some incorrectly, he did not know how, for that reporters were present and the extracts did not affect the charges by the gentleman from Mass. that he (Mr. Brooks) had been a Know Nothing and been connected with that organization.

Mr. Dawes said that was not it. He had admitted the statement that he had not been affiliated with the Know Nothing party in Lodges, but he said that while the gentleman kept his head out of the ballot, he had advocated their principles and derived all the benefit he could from the party until it proved a failure.

Further colloquy ensued, between Brooks and Dawes, concluding by Mr. Brooks' withdrawal of the charge that Mr. Dawes had wilfully misrepresented him, and a similar concession by Mr. Dawes.

Amendments to insert Rome and to strike out the mission to Greece, and to combine the missions to Denmark and Sweden were rejected without division.

Messrs. Degener and Kilkenberg proceeded at length to criticise the remarks of members in the debate on Thursday, which they considered disrespectful and contemptuous toward the German people, whom they defended as good citizens, intelligent voters and true Republicans as long as the Republican party was true to itself.

Mr. Cox suggested that the gentleman from Ohio, Mr. Mungen, be allowed to address the Committee in German.

The chairman (Mr. Ingersoll) did not see any objection to that. (Laughter.)

The paragraph for the Minister residence at the Argentine Republic, was amended by striking out the words "appointed also to Uraguay," and by reducing the appropriation from $11,250 to $7,500.

The paragraph inserted appropriating $4,250 for the minister to Uraguay was accredited also to Paraguay.

The paragraphs for commissioners to Hayti and Liberia, were amended by substituting the words "minister resident" for commissioner.

The Committee rose, and the House voted, 98 to 77, to lay on the table Mr. Fenton's motion to [illegible] vote of Saturday last, when Mr. Newell [illegible] the House [illegible] Mr. Dawes [illegible] Mr. Brooks [illegible] Mr. Dawes [illegible] not [illegible]

At a place of amusement in Indianapolis, the other night, a little girl actress sang "Little Barefoot" in costume. Such was the effection the audience that at the repetition of "Please, sir, give me a penny, sir," it fairly rained nickels on the stage; at least two dollars worth were thrown.

A western gentleman, who is interested in the affairs of France, writes from Louisville "I have been discussing the plebiscitum with a friend of mine for the last few hours and have exhausted the subject. Augustin Daley gave a dinner at the St. James Hotel, N. Y. Friday evening, in celebration of the 100th performance of "Frou Frou," as presided over by Mayor Hall. Among the guests were Recorder Hackett, Richard O'Gorman, James Fisk, Jr., and others.

MEN AND WOMEN. The records of the receipts of customs reveal some very curious facts. The weakness and follies of the rich, not less than the necessities of the poor, are set down in figures at the Custom House. It is particularly to even to watch and compare the extravagance of the stealthy means of the balance of duties on imports. A tabular statement of the duties paid on those articles which are considered by some minds non-essential, merely luxurious, would place the whole matter before the eye with the most perfect distinctiveness.

But not to be statistical in so severe a form let us see, in a few instances, what duties the "dear creatures" paid, or which the men paid for them, in 1869 for luxuries, from "silly white," $60,020. Item—for beads, a taste aboriginal to this country, $96,216. Item—for "fancy fans," $71,832.55. This, perhaps is not unreasonable, fans playing so important a part in the feminine routine; nor should we demur to $120,680.20 paid for chignons, when we consider that the "water-fall" is a mere momentary caprice, a hairy nothing in the sum total of woman's wants. But ribbons are, absolutely indispensable to human happiness; a ribbonless world cannot be contemplated with composure, and for ribbons there was paid the amount of $2,230,199.53. In like manner silk dresses bereft of which lovely woman were a wretched being, a thing of beauty forever, called for the preposterous penalty of $5,248,768.56.

As an offset to these items, it is hardly worth while to mention five and a half millions collected on the brandy, wine and other liquors drunk by the men, or the million and a quarter charged in duties on the cigars they smoked. Clearly the women have the best reason to cry out against the tariff.—N. Y. Post.

STONE SIGNALS DURING HAYTIME. Mr. A. Watson of Washington, D. C., whose plan for signaling throughout the country the approach of storms, during the summer months, we have made some mention—has put before the public another circular calling attention to his plan. It is in brief, to send in advance by telegraph notice of an approaching storm, indicating the kind of storm and the probable distance it may travel. At each city, county seat and principal town a cannon is to be kept ready to be discharged by the proper persons, at intervals which shall designate the approach of the ordinary rain storm, approaching rapidly or slowly; a thunder shower, hail shower, gale or tornado. In view of the distance in every direction, in which a cannon may be heard, Mr. Watson is sanguine that "putting one at each county seat and principal town, the farmers over the whole country, in harvest time, will be warned to stop cutting, and to get their hay or grain under cover, or in a situation to shut out the rain, thus saving not only that portion which had been cut, and cured previous to the warning, but also saving that portion which otherwise would have been cut during several hours, or a whole day, without such warning." We have little doubt, that with our knowledge of the laws of storms, and by the aid of the telegraphic lines which connect our entire country, some such plan as that suggested by Mr. Watson will eventually be put in use to warn farmers of the changes in the weather, which during the summer months often cause such immense damage to crops that are being harvested.—Maine Farmer.

CURE OF GRAVEL OF FIVE YEARS' STANDING—STONE PASSED AND TO BE SEEN.

SAVANNAH Tenn. May 11 1870

Dr. H. T. HELMBOLD

DEAR SIR.—Having taken your Fluid Extract Buchu in one small bottle, and two large ones, and any inquiry on my behalf, I will refer you to Mr. Isaac Bell, the druggist of this place, with whom I purchased the medicine. Mr. Bell is well acquainted with my case, having known me for years. I bought and took of you the first bottle for Dropsy, in connection with my brother, Dr. Bell, who has been using your Extract Buchu for Kidney disease, and now he is under your treatment for Dropsy. I have no hesitancy in saying that your Extract Buchu is the best remedy I ever used for Dropsy, Gravel, Kidney Complaint, and all diseases of the Urinary Organs. I am Grand Chancellor of the State of Tennessee, and have been solicited by many of the Brethren to use my influence to get you to come to this place and establish your depot of medicine here, but I have declined doing so, for the reason that I am not a druggist, and do not wish to be troubled with the business. I can truly say that your Extract Buchu has done more for me than all the doctors I have ever employed. I have been afflicted with Gravel for five years, and have had the stone in my bladder about two years, which I have passed. I was induced to use your Extract Buchu by reading your pamphlet, and now I am entirely free from pain, and
